

## OUR MISSION

The Players of Evergreen Commons is a group of people involved in supporting and participating in all aspects of the theatre arts for personal enjoyment and enrichment. We are committed to staging performances for a variety of audiences in a variety of venues.

## OUR FOCUS

While we enjoy a variety of theatre arts, we prefer performing scripts using the Readers' Theatre format. Volunteer readers use their voices, facial expressions and gestures to create places, times and situations that engage audience imagination. We provide light hearted entertainment without lots of "frills" which enables us to travel light. Just scripts and reading stands!

**The Players of Evergreen Commons are associated with—HOLLAND CIVIC THEATRE**

A non-profit organization founded in 1960 to provide the excitement of live theatre productions and offer educational theatre experiences to the greater Holland community.

## OUR VENUES

We bring performances to a variety of venues; retirement communities, senior centers, nursing homes, adult daycare facilities, assisted living facilities and community organizations. However, our venues are not limited to a specific category or location. Typically we will perform during the day, Monday through Friday. Our performances are free. However, a donation or free-will offering will support future performances.
